—Gebbie & Co., Philadelphia, will shortly publish "Half a Century of Music in England," by the late Francis Hueffer. The book was finished just before the death of the popular author.

—D. C. Heath & Co. will soon publish the "Public School Music Course," by Charles E. Whiting, formerly teacher of music in the Boston public schools. It will be a series of six graded music-readers, adapted to all the primary and grammar-school

grades, and intended to lead up to the author's "High School Music Reader." Time-names, breathing-marks, etc., are included, and every thing necessary for a complete music course. There is a large number of one, two, three, and four part songs, selected from the best German, English, French, and American composers. Each of the first three numbers has, besides the songs, over three hundred exercises. The first two books will be illustrated.

**The Electrical Articles  
IN SCRIBNER'S MAGAZINE**

are begun in The June Number, by Prof. C. F. Brackett of Princeton, by a paper entitled "Electricity in the Service of Man," setting forth in a clear, precise way, some of the common methods by which the more important electrical phenomena are produced. The illustrations are copious and beautiful. Other articles in the series will follow (*i.e.*), "Electricity in Modern Telegraphy," by Charles L. Buckingham, chief electrical expert of Western Union Tel. Co.; "Electricity in Lighting," by Henry Morton, President Stevens' Institute; "Electricity in the Household," by A. E. Kennelly, chief electrician in laboratory of Thomas A. Edison; "Electricity in relation to the Human Body," by Dr. M. Allen Starr; "Electricity in Warfare," by Lieut. W. S. Hughes, U.S.N.; "Electricity in Large Industries," etc., etc., etc.

This will be one of the most interesting and valuable series of articles ever attempted. Nothing will be left undone to make it surpass in popularity the "Railroad Series," begun about a year ago in Scribner's.

Among other valuable Articles in The June Scribner are one on "Building Loan Associations," and another on "Striped Bass Fishing."

Price 25 cents a number, \$3 00 a year. Begin your subscription with June No., which contains the first of the electrical articles.

"The Week, one of the ablest papers on the con-  
tinent."—*Descriptive America*.

ENLARGED AND IMPROVED.

## THE WEEK:

*A Canadian Journal of Politics, Literature, Science  
and Arts.*

PUBLISHED EVERY FRIDAY.

\$3.00 per Year.

\$1.00 for Four Months.

THE WEEK has entered on its SIXTH year of publication, greatly enlarged and improved in every respect, rendering it still more worthy the cordial support of every one interested in the maintenance of a first-class literary journal.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its value and attractiveness as a journal for the cultured home. Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, PROF. GOLDWIN SMITH will, from time to time, contribute articles. London, Paris, Washington and Montreal letters from accomplished correspondents will appear at regular intervals. Special Ottawa Letters will appear during the sessions of Parliament.

THE WEEK in its enlarged form will be the same size as "Harpers' Weekly," and the largest paper of its class on the continent.

## PARIS EXPOSITION.

The Cheque Bank issues Cheques, either singly or put up in Books, for the special use of VISITORS to the PARIS EXPOSITION, who can cash the same at upwards of seventy Banking Houses, situated in different parts of Paris, without charge.

Visitors' mail matter can be addressed to them, Care of the Societe Generale, 4 Place de l'Opera, opposite the Grand Hotel, where English is spoken.

Every Cheque that is issued by the Cheque Bank is EQUAL TO CASH, as Bank Notes are, for the Bank's Capital, Guarantee Fund and Customers' Balances are invested in British Government Securities, or held in Cash in the Bank of England, and can be cashed in every town in Europe without charge.

For Handbook containing list of 2,500 Banking Houses who cash the cheques, free of charge, apply to
